---

Hi Chris,

Excavation within the phase I area has yet to begin as the crew is still setting up storm water protection and getting the area marked out. The construction manager, Jim Tyson, will be arriving on site tomorrow and will provide Marty and I with an updated schedule to begin digging once he has assessed the site and settled in. I will provide this information to you once I have it.

Thanks,

Mike Stephenson

Hi Mike and Marty-

Has the Phase 1 excavation begun? When is the excavation west of building I scheduled to take place?
